

47-inch Tough LCD Display
with Dust and Water resistant and Direct Sunlight Capability

TH-47LFX6NW

Product specification (design and specification subject to change without notice)

■ DISPLAY PANEL

Screen Size (Diagonal)	47-inch (1192 mm)
Panel type	IPS / D-LED
Aspect ratio	16:9
Effective Display Area (W x H)	1039 x 584 mm
Number of pixels (H x V)	1920 x 1080 pixels
Brightness	1200 cd/m ²
Contrast Ratio	1300:1
Dynamic Contrast Ratio	500000:1
Response Time	10 ms (G to G)
Viewing Angle (Horizontal / Vertical)	178° / 178°
Panel Life Time	approx. 50000 hours*

* An approximate time until the panel brightness decreases to half of its original value.
In the remote control power "OFF", when using the outdoor mode is included in the panel life time.

■ CONNECTION TERMINAL

HDMI IN	HDMI TYPE A Connector x 1	
DVI-D IN	DVI-D 24pin x 1	Compliance with DVI Revision 1.0 Compatible with HDCP 1.1
AUDIO IN (L/R)	Stereo mini jack (M3) x 1 (Shared with PC IN)	0.5 V rms
PC IN	Mini D-sub 15pin x1 (Female)	G : with sync 1.0 Vp-p (75Ω) : without sync 0.7 Vp-p (75Ω) B : 0.7 Vp-p (75Ω) R : 0.7 Vp-p (75Ω) HD/VD : 1.0 - 5.0 Vp-p (high impedance)
AUDIO IN (L/R)	Stereo mini jack (M3) x 1 (Shared with DVI-D IN)	0.5 V rms
DIGITAL LINK	RJ45 x 1 (Shared with LAN)	

■ CONTROL

SERIAL IN	D-sub 9pin x 1, RS-232C Compatible
LAN	RJ45 x 1, 100BASE-TX, Compatible with PLink (Shared with DIGITAL LINK)

■ AUDIO

AUDIO OUT	Pin jack (L/R) x 1 set
-----------	------------------------

■ ELECTRICAL

Power Requirements	220-240 V AC, 50/60Hz
Power Consumption	270 W
Power off condition	approx. 0.3 W
Stand-by condition	approx. 0.5 W
Outdoor mode ON	approx. 41 W
Network stand-by mode	approx. 16 W

■ MECHANICAL

Dimensions (W x H x D)	1162 x 706 x 216 mm
Bezel Width	32 mm
Carton Dimensions (W x H x D)	1308 x 851 x 323 mm
Weight	approx. 47 kg
Gross weight	approx. 55 kg
Cabinet Material / Color	Aluminum / Black (Front cabinet) & Silver (Back cover)
Protection Glass	Yes
Pitch for Wall-Hanging	VESA Compliant 400 x 400 mm (Installed by: M6 screws / Screw hole depth 17 - 55 mm)

■ INSTALLATION REQUIREMENT

Orientation	Landscape / Portrait
Tilting Angle	0-20 degrees forward with landscape and portrait setting 0-20 degrees backward with portrait setting

* Please contact your sales representative with regard to the tilt angle before installation.

■ ENVIRONMENTAL

Direct Sunlight Capability (measures against Blackout)	Yes (Built-in air cooling system)
Dust and Water resistant level	IP55
Operating environment	Temperature : 0°C to 50°C, during Outdoor mode : -20°C to 50°C Humidity : 20 % to 80 % (Non condensation)
Storage enviroment	Temperature : -20°C to 60°C Humidity : 20 % to 80 % (Non condensation)

Don't use in places where the presence of corrosive gases or salt damage area.

MAIN FEATURE

Digital Zoom	Yes (x 1 ~ x 4)
MULTI DISPLAY	Yes (N x M, up to 5 x 5)
Power ON Screen Delay	Yes
Seam Hides Video Off Mode	Yes
1:1 Pixel mode	Yes
Automatic Picture Position	Yes
Screensaver	Yes
Power Save	Yes
PC / DVI-D Power management	Yes
ECO Mode	ON / OFF
Input lock	Yes
Button lock	Yes
Remote-control User Level	Yes
Outdoor mode	Yes
Input Search	Yes
Orientation	Landscape / Portrait
Operating Time	24h / 7d
Polarized sunglasses correspondence	Yes

In case of running for a long time, the moving image is recommended to be displayed. If you display a still picture for an extended period, the image retention might remain on the screen. However, image retention can gradually disappear by displaying a moving images.

DIMENSIONS

CONNECTION TERMINAL

STANDARD (CERTIFICATIONS)

IP (Ingress Protection) Rating	Corresponding to IP55
Safety Regulations	
Europe	EN60065, IEC60065, EAC
Asia	AS / NZS60065, SASO, IEC60065 / SS, IEC60065 / PAI
Radiation Regulations	
Europe	EN55022 Class-B, EN55024, EN61000-3-2, EN61000-3-3
Asia	CISPR22 Class-B

INCLUDED ACCESSORIES

- AC power cord (approx. 2 m)
- Remote control transmitter
- Batteries
- Operating instruction book
- Door holders x 2
- Panasonic badge
- Ferrite core x 2
- Cable tie x 2
- Screw x 12

OPTIONAL ACCESSORIES

Replacement Air Filter	TY-AF60STD
Early Warning Software	ET-SWA100

Cautions: This drawing is not a scale
Units : mm

Pitch for Wall-Hanging
M6 screws
Screw hole depth:
17 - 55 mm

APPLICABLE INPUT SIGNALS

PC signals

*Mark: Applicable input signal

	Signal name	Horizontal frequency (kHz)	Vertical frequency (Hz)	PC IN (Dot clock (MHz))	DVI-D IN (Dot clock (MHz))	HDMI/DIGITAL LINK
1	640 x 400 @70Hz	31.46	70.07	* (25.17)

14	1125 (1080) / 30p	33.75	30.00	* (74.25)	*
15	1125 (1080) / 25p	28.13	25.00	* (74.25)	*
16	1125 (1080) / 24p	27.00	24.00	* (74.25)	*

- The corresponding signals for DIGITAL LINK inputs are the same as those for HDMI inputs.

● Precautions for installation

Although the LFX60 display corresponds to the IP55 dust and water protection standard for outdoor use, please read the following precautions before designing the installation specifications.

(1) Always use the product at an ambient temperature in the range of 0°C – 50°C (-20°C – 50°C with Outdoor mode “ON”).

Please make sure that the intake-air temperature does not exceed 50°C. (The intake-air temperature refers to the temperature 5cm from the Inlet of the Display). Please take measures so that hot exhaust air from the Outlet does not come into the Inlet.

* Landscape installation.

* Portrait installation

For the portrait installation, the Display shall be rotated 90 degrees clockwise.

(2) The display utilizes a cooling system that circulates outside air. Do not install the display in a sealed case or enclosure without adequate ventilation.

When installing the display in a case or enclosure, please secure openings with punched metal etc. at the back of the Display Inlet and Outlet. The opening area shall be more than 1050 cm² for the Inlet and Outlet respectively (1050 cm² is a rough indication).

[Example for the enclosure design]

1) Openings for ventilation shall be located at the back of the Display Inlet and Outlet respectively with 1050 cm² openings (40% punched metal requires W:25cm × H:105cm dimensions).

2) The required space in the enclosure shall be ;

- (1) Behind the display: 5cm to 15cm (*1)
- (2) On the left, right, top and bottom of the display: 5cm

(*1) When the spacing behind the display exceeds 15cm, exhaust air may not vent smoothly and be drawn into the Display Inlet. To prevent such a situation, a separator material to isolate the intake and exhaust air shall be installed as illustrated.

- 3) When installing the Displays “side by side” or “back to back”, please make sure hot exhaust air is not drawn from the Inlet of the other Display. A separator material may be installed as illustrated.

“Side by side” installation

“Back to back” installation

- (3) This display requires periodical cleaning or exchanging of the air filters. For maintenance purposes, please secure enough space (5cm + work space) at the back of the Display (*2).

- (*2) In case of a wall-embedded installation, securing 20cm spacing around the display is recommended ($d \geq 20\text{cm}$).

- (4) Surface of the LCD panel is cooled by intake air flowing between the LCD panel and the tempered front glass. After a certain period of use, tiny particles of dust may stick to the inside of the front glass. The dust can be cleaned off by opening the front bezel frame as shown below.

Remove 10 screws (at arrows) to open the front frame bezel. This will require work space at the back of the display.

- (*3) The front frame bezel is hinged to the cabinet. 2cm of space is required for opening it as illustrated.

- (5) To use the Display in an environment where the outdoor air temperature is lower than 0°C , make sure to set the “Outdoor mode” to “On”. The inside temperature is kept constant and startup can be performed smoothly. Also, set the Outdoor mode to “On” if the Display is installed where direct sunlight is on the screen. Do not unplug the power cable while using the Display with the Outdoor mode “On”.

- (6) If the main power cannot be provided when the Display is not in use, the Outdoor mode will not function during stand-by. Protect the display from direct sunlight by using a display cover, etc.

(7) Angled installation

The tilt angle of this display is;
 0-20 degrees forward with landscape and portrait setting
 0-20 degrees backward with portrait setting
